

Good day!

I'm writing you about the proposed TEMPORARY sales tax reduction. In my opinion reducing these taxes is a good thing because they shouldn't be there anyway!

The people of Connecticut are really looking for a better reduction in taxes such as gasoline, property taxes! Cutting the sales & use tax should be a given there shouldn't be taxes on many of the Goods & Services we receive here in Connecticut. In my professional opinion reducing fossil fuel taxes would make much more sense! If the State reduces fuel taxes everyone WINS!

Sales tax TEMPORARY reduction would certainly not provide ANY financial benefits long term therefore I am against a TEMPORARY sales tax reduction but am in favor of a permanent reduction in fuel taxes!

Thank you for your time.

Respectfully,

Mark Levasseur
